Deep Diving Submersible Pilot Chris Welsh Presenting at the Environmental Nature Center

- Who:** The Environmental Nature Center is hosting a presentation by Chris Welsh, chief pilot for Deep Sub LLC. Deep Sub LLC operates a deep diving submersible and mothership capable of going depths of 36,000 feet.
- What:** Chris Welsh will talk about the sub's design, diving locations, planned exploration and scientific goals. Welsh will also talk about his objective to accomplish "Five Dives" to the deepest places in each of the five ocean basins, the least explored places on Earth.
- Why:** ENC wants to share Chris Welsh's adventures and the important impacts they could have. The deepest places in each of the five ocean basins have its own geology and life forms awaiting discovery.
- Where:** Environmental Nature Center
1601 E. 16th Street, Newport Beach CA
- When:** Wednesday, March 2, 2016
6 p.m.
