The Environmental Nature Center (ENC) facilitates one-of-a-kind team building workshops for school teachers. This type of professional development workshop is a great way to engage teachers at the beginning of the school year and get them excited for the year ahead, or at the end of the school year to have teachers decompress and debrief about the past year.

Team building workshops help teachers explore different modes of communication, how to work collaboratively, and allows them to practice creative problem solving as a group. Not to mention this workshop is a really fun bonding experience out in nature.

ENC will facilitate these workshops for nonprofit and corporate groups as well. Participants leave feeling closer to their colleagues, reinvigorated about their jobs and empowered to do great work.

For additional information, contact Mindy at mindy@encenter.org.

Environmental Nature Center is located at 1601 E. 16th St., Newport Beach.
