## ENC has added Before School Camp in addition to its After School Nature Camp for this fall

The Environmental Nature Center (ENC) has just added Before School Nature Camp for students in grades K-3rd who attend school in the afternoons. Morning camp runs from 9-11 a.m., whereby campers can explore outside in the free hair and make discoveries with friends and the ENC naturalists.

fresh air and make discoveries with friends and the ENC naturalists.

There is still space in upcoming sessions of After School Nature Camp as well. Two different time options are available: 1-4 p.m. and 3-5 p.m.

Youngsters at ENC Nature Camps enjoy hands-on learning in the outdoors

All camps this fall are offered in two-week sessions with a choice to enroll Monday, Wednesday and Friday; Tuesday and Thursday; or Monday through Friday.

Before and After School Nature Camps provide a safe opportunity for campers to get outside for physical activity, hands-on learning, socialization and nature play.

Students attending school in person or at home will be provided with critical programming they need to re-engage, re-connect and thrive.

The ENC adheres to the most up-to-date health and safety standards from the Centers for Disease Control and Prevention, and the OC Health Care Agency. Learn more about ENC's COVID-19 policies at https://encenter.org/camps/. To register, visit https://encenter.campbrainregistration.com.
